Digits of time

You may want to use a tally chart to help you record as you count the minutes and hours.

e.g.

Number	Tally	Total
9	𝍸 𝍸 𝍸	15
3		

Group 1,2,3

1. How many times is the digit 9 used between midday and midnight on the 24-hour digital clock?

   Start at 12:00, 12:01, 12:02, 12:03 etc

Group 2,3

2. Would your answer be the same for the digit 3?

   Why/why not?

3. Which other digits are used the same number of times as the 9?

Group 3

4. Which digits do you think are used more often than the 9?

   Explain why to a partner in Teams posts, in writing.

5. Which digit do you think is used most?

   Why?
